Blood Management Technologies

Blood Tubing Stripper

- **HS Series**

HS-002

HS-Series Blood Tubing Stripper offers a comprehensive range of performance enhanced capabilities.

It is specifically designed to strip, crimp and cut tubing in the preparation of blood segments from the blood collection and processing procedures. The blood in the tubing segments is stripped into collection bags and mechanically sealed with the aluminum clips. Using the side jaws of the Hand Stripper, the segments are further separated by cutting between the seals.

Blue Everest Medical
BECAUSE LIFE MATTERS

Product Features

High quality aluminum alloy
Anti-rust, light weight and sturdy
Ease of cleaning by wiping or soaking in IPA

Ergonomic design for good grip and stripping
Ease fatigue over prolong use

Self-centering roller system keeps tubing in position
Smooth traction for effective stripping of blood components

Internal spring system keeps handles in open position
Minimize entanglement with blood tubing

Technical Specifications

Model	*HS - 002*
Base Material	Aluminum Alloy & SUS
Rollers	Special Composite Steel, Non-Rust
Cutters	na
Features	Self-Centering Rollers
Cutter	No
Net Weight (g) +/- 5%	68
